**On the 4th of July 2010 a record including the song, video

“Nasze życie jest jak rzeka”

The Rajlender performs its own original music based mainly on the source materials drawn for inspiration on the old Wielkopolska region folk motifs. The musical band, which performed at the Folk Stage of the 2008 Woodstock Festival, the 2010 Folkowo Festiwal, gives concerts all around Poland.

The Rajlender joins traditional, folk sounding of the accordion and clarinet with modern contemporary musical instruments such as the electric or acoustic guitars, bass, piano and drums.

All you need is to combine folk instruments with the guitar, bass and piano. Then, slightly rearrange already existing folk tunes and add a few original compositions of your own... and here you are.
